L. D. S. U. Decides to Not Enter Team in the State Basketball League.

The L. D. S. U. will not enter a team in the state school baseball league this season, but intends to remain in the High school class in this sport. A meeting of the B. Y. U., B. Y. C., A. When seen yesterday Coach Milne said the Saints had decided to remain in the High school class, principally for two reasons. One class, principally for two reasons. One was that the L. D. S. U. won the High school championship last season and that they though it would be no more than right to give the High schools a chance to win the title back again this year.

Another was that the Saints have mot an enclosed campus where they can charge admission to games and thereby get funds to help pay the expenses of such games. In playing in the state league it would be necessary for the L. D. S. U. to

be called off. The entries for the races closed Saturday and only ten cars were entered for the seven events scheduled. # S.S.S.CURES CATARRH

Catarrh is not merely a disease of the mucous membranes and inner linings of the body as some of the symptoms would seem to indicate; it is a deep-seated blood disease, in which the entire circulation and the greater part of the system are involved. Like all other blood diseases. Catarrh comes from poisons and impurities accumulating in the circulation which wig, 84. irritate and inflame the tissues and mucous surfaces, and then the unpleasant symptoms of the disease are manifested. There is a ringing noise in the ears, a thin, watery discharge from the nostrils, filthy matter drops back into the throat, the breath has an offensive odor, and many other annoying and unpleasant symptoms are characteristic of the trouble. Sprays, washes, inhalations, etc., cannot reach the blood, and are therefore valuable only for the temporary relief they afford. To cure Catarrh the blood must be purified. Nothing equals S. S. S. for this purpose; it goes down into the circulation, removes the catarrhal matter, purifies the blood and makes a lasting cure. When S. S. S. has removed the cause, the blood being pure and healthy nourishes the membranes and tissues instead of irritating them with noxious matter, and the symptoms all pass away. When N. Byhower, the new superinten-

sent him forth purged of the charges made against him.

The last session of the famous investigation was marked by a discussion of "Who got the \$4?" This matter is on "Who got the \$4?" This matter is not cleared up yet.

Another incident was a charge of "graft" against the engineering department. It appears that H. A. Zerbe sold a load of city sand for 40 cents. Alec Jones, an employe of the same department, said that he received 45 cents for the load and turned the money over to Zerbe. Zerbe admitted getting only 40 cents. What became of the \$42,000 taken from the Utah National bank. Pinkertons will be employed to trace this sum, and while the nat is being woven all the employes of the engineer's department will be under a cloud. The strain will break soon.

The \$4 incident was testified to by Jim Hardman. Hardman was a witness for the prosecution. He was so worn and while subscribing to the oath puffed a cigarette. He said that he had paid Raleigh \$4 for taking the property of the prosecution. He was sential both for my protection and for \$41,000 taken from the Utah National bank. Pinkertons will be employed to trace this sum, and while the nat is being woven all the employes of the engineer's department will be under a cloud. The strain will break soon.
